

THE BAR

Cocktail Master Class

You arrive at The Bar.

Your cocktail experience starts with a reception glass of fizz (full package only). Your private bartender will begin with a brief talk on cocktails and the current trends of the moment. All the bits and pieces that go into the making of a cocktail will be explained and you'll get to make and drink all the cocktails yourself! After your master class you can kick back and relax in your private area and enjoy some hot and cold nibbles (half and full package only).

Cocktail Making:

Every table will be set with the ingredients and instruments you'll need to create each cocktail. Your professional bar tender will guide you through every step of the process to make your very own perfect cocktails.

THE MOJITO:

Its combination of sweetness, refreshing citrus & mint, are intended to complement the potent kick of the rum, and have made this clear Cuban highball a popular summer drink.

THE COSMOPOLITAN:

The origins of the cosmopolitan are somewhat disputed. It is likely that the drink was created independently by different bartenders since the 1970s. The cosmopolitan gained popularity in the 1990s, and was further popularized among young women by its frequent mention on the television program *Sex and the City*.

THE LONG ISLAND ICED TEA:

Long Island Iced Tea is a summer drink and was first served in the mid 1970s by a bartender in the Town of Babylon, Long Island, New York. It is a highball made with, among other ingredients, vodka, gin, tequila, and rum.

An alternative is The Long Beach Iced Tea which is the same but substitute's cranberry for the cola.

After the fun, relax and drink your cocktail creations in your private area with great music and nibbles (if opted for).

DURATION:

Allow two hours for the Cocktail making class; however the experience is completely flexible and can be organised around other activities or time constraints. After your meal you are free to stay on in your private area, with funky music, great tasting drinks and the best atmosphere this side of town.
